

**O & P CONSTRUCTION
SERVICES LTD**

CHARTERED BUILDING COMPANY

CONTRACT DETAILS

ALTERATIONS AND REFURBISHMENT OF PHARMACY DEPARTMENT, C FLOOR, ROYAL HALLAMSHIRE HOSPITAL

Client: Sheffield Teaching Hospitals NHS Trust

Consultant Architect: Self Architects

Completion date: May 2009

Value: £650,000.00

PROJECT DESCRIPTION

The refurbishment and reconfiguration of the dispensary, along with supporting accommodation such as offices, waiting rooms and reception areas.

These works were undertaken to enable the installation of a state of the art robotic dispensing system.

CHALLENGES

The project required co-ordination of multiple service installations to provide a computer controlled air-conditioned environment for controlled drugs and robotic dispensing system. Regular meetings between all parties involved with services installation were arranged to ensure the various subcontract teams could install the services in the limited ceiling void whilst maintaining the critical clear headroom required for the robot.

It was vital that good fire compartmentation was achieved as the site is within a multi-storey building. All service penetrations were fully fire stopped using a variety of techniques from proprietary fire collars to intumescent mastics and sealants.
